

FAMILY COMMUNICATION POLICY

Family participation is an important part of making the service a true part of the community. We believe in creating an environment that is welcoming and inclusive and supports a sense of belonging for children, families, and educators.

Partnerships are based on the foundations of respecting each other's perspectives, expectations and values, and building on the strength of each other's knowledge and skills. Learning Outcomes are most likely to be achieved when educators work in partnership with children, families, other professionals and communities, including schools.
